Abilene Housing Authority Kids Events

School-aged kids can meet up to free-build with LEGO at the library in this after school series.

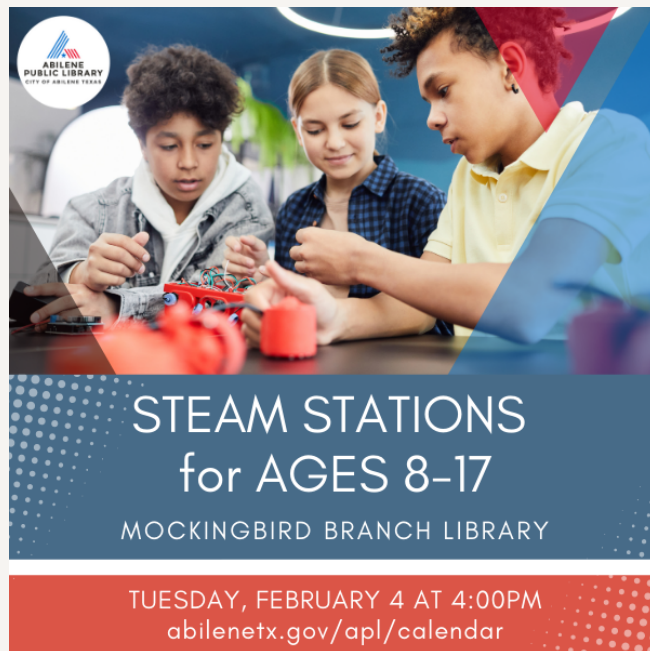

Tired of stepping on loose LEGO at home? Come down to the Mockingbird library this Fall, build to your heart's content, and leave the loose LEGO to the librarians!

All supplies provided.

Tweens and teens are invited in for self-paced STEAM fun with various projects we'll have setup to get hands-on with.

Tweens and teens are invited to visit the library to be a part of the STEAM Stations event where we'll host a series of afternoon activities that are fun and educational. STEAM stands for science, technology, engineering, art, and math and at each of these sessions we'll provide separate stations for participants to take advantage of for some self-paced learning fun.

STEAM activities help to strengthen critical thinking and reasoning skills, which certainly will serve students as they grow. Come check it out and take advantage of our STEAM fun at your library.
